	<b>ONE CHOICE®</b> Top selling displays produced at our Baja location. This allows us to offer even lower prices with free ground bulk shipping.
	<b>FREE UPS GROUND SHIPPING</b> Free ground shipping offered with our One Choice® products.

## DIGITAL PRINTING COLOR INFORMATION

### OFFSET VS. DIGITAL

Digital printing offers a shorter turnaround and more consistent end results than offset printing. Digital printers do not print PMS and RGB colors. These colors will have color shifts.

### PMS (SPOT COLOR) MATCHING

Although digital printers do not print PMS colors, our production team will manually adjust the color output to match your spot colors upon request (per color/material). Please ask us about our PMS Color Matching service when you upload your files.

**\*Please note that 1-2 business days will be added to the turnaround time.**

### MATERIAL

Printed colors look slightly different depending on materials.

### RE-ORDERING

If you are in need of graphics from a previous order printed by us, let us know before you approve proofs. To match colors with previously printed graphics as closely as possible, we need extra time and information from you. We typically hold files for 3-4 months. By request, we can back up files for future use.

## PRINTING METHODS

### UV PRINTING

Using the 4-color process (plus light cyan and light magenta), we create weather resistant images for outdoor graphics using ultraviolet curable inks.

**Used for:** Roll Up Banner Stands

### DIRECT-TO-FABRIC DYE-SUBLIMATION

The direct-to-fabric printing process applies the ink directly to the fabric using the 4-color process. The print then goes through the sublimation process of heat-plus-time to create beautiful, photo images.

**Used for:** Single and Double-Sided Flags, and Casita Canopies

### PAPER TRANSFER DYE-SUBLIMATION

The Dye-Sub Paper Transfer printing method takes the 4-color process to a new level, with a print quality that yields crisp lines and colors. Colors are printed directly onto paper which then get transferred to fabric and fused via dye-sublimation.

**Used for:** 4-Sided Table Throws, Fabric Displays, and Fabric Pop Up Displays

**NEW PRODUCTS**

**REAL ESTATE SIGNS**  
Product Code: RESP-S-G / RESP-L-G
